João Pedro Donadio

Research Data Analyst

Passionate about transforming raw data into actionable insights, I specialize in bridging fieldwork with advanced analytics to support data-driven decision-making.

Experience

● Research Technician

FAPESP - São Paulo State University Mar 2025 - Current

- Train and supervise teams on experimental procedures.
- Contribute to statistical analysis planning, including experimental design, data interpretation, and validation to support research findings.

● Research Assistant

São Paulo State University Mar 2023 - Feb 2025

- Coordinated research projects focusing on dairy cattle welfare in collaboration with international universities and institutions (Unesp, UBC, Embrapa)
- Managed team calendars, scheduled meetings, and ensured project execution
- Organized and coordinated events and conferences
- Science communication and outreach activities
- Developed reports, technologies, patent development, and scientific papers

● Visiting Research Student

University of British Columbia Jan 2024 - Jul 2024

- Contributed to ongoing research projects
- Participated in laboratory meetings, research discussions, and academic collaborations

Projects

Rural Credit and Organic Farms Assessment

Stakeholder Project [Consultancy for Brazilian Government](#)

- Evaluation of agricultural loans and organic farming adoption at national, regional, and municipal levels.
- Skills: Data cleaning, Geospatial data, SQL, Dashboards.

Use of Nipple Water Troughs for Dairy Calves

Academic Project [Published in AABS journal](#)

- Experimental project evaluating the effects of the use of nipple water troughs on dairy calves' behavior.
- Skills: Applied Ethology, Excel, R, Data Visualization

Meta-Analysis: Dairy calf group housing

Academic Project [Published in Journal of Dairy Science](#)

- Evaluation of the effects of early group housing on calf performance, health, and behavior during the preweaning period.
- Skills: Data Collection, Excel, R, Review, Data Visualization
